

## Lone Wolf Real Estate Technologies & BBO Pro Press Release

*Lone Wolf Real Estate Technologies purchases broker management software division from Fidelity National Real Estate Solutions*

**Cambridge, ON - October 3, 2007** - Lone Wolf Real Estate Technologies, the largest supplier of real estate office management software in North America, announced today the purchase of the Broker BackOffice Pro management software division from Fidelity National Real Estate Solutions.

Effective September 24, 2007, the sale transferred the rights to FNRES' Broker BackOffice Pro software to Lone Wolf. With the acquisition, the Lone Wolf Realty Management System and related products will be utilized by well over 4,000 real estate offices in Canada and the U.S., managing the financial activities of a real estate brokerage office through a fully-integrated, state-of-the-art system.

For Lone Wolf Real Estate Technologies, the purchase expands the privately-held company's offerings to real estate brokerages for back office management technology.

"The acquisition of these assets from FNRES will bring additional contact management and work flow skills to the Lone Wolf suite of products, as well as adding excellent sales, training and support staff. The purchase supports our commitment to providing quality back office management solutions and we're looking forward to working with the current customer base on Broker BackOffice Pro." said Lorne C. Wallace C.A., President of Lone Wolf.

Lone Wolf Real Estate Technologies includes a suite of products comprised of the Realty Management System, Global Wolf office and agent web-sites, Wolf EX company extranet, showing solutions and other ancillary products.
