

## Jonathan Peterson appointed Vice President and General Manager of Lone Wolf's Newly Acquired DPN Division

**Las Vegas, Nevada (September 26, 2008)** – Yesterday Lone Wolf Real Estate Technologies announced the purchase of DPN, another industry leading software provider. Today Lone Wolf's President Lorne C. Wallace C.A. appointed Jonathan Peterson to head up their DPN Division as Vice President & General Manager.

"Jonathan has been a driving force within Lone Wolf for almost a decade and was the natural choice when deciding who should be running this new division." said Wallace. "Jonathan has been instrumental in positioning Lone Wolf within the North American real estate brokerage community and his leadership in our operations is a natural fit for his new role. We are very pleased that we have an individual of Jonathan's caliber to move into this position and are confident that he will ensure continued success with both the internal DPN team and the valued clients currently running DPN systems."

"This is an exciting opportunity for our two organizations." says Peterson. "I look forward to working alongside the experienced staff at DPN and the customers who have enjoyed the features and benefits of the system"

### **About Lone Wolf Real Estate Technologies, Inc.**

Lone Wolf Real Estate Technologies offers a complete suite of solutions for real estate brokerages. The Realty Management System (RMS) is Lone Wolf's flagship program, providing a fully integrated accounting and management program for the broker/owner.
